

## Environmental policy

EnBW Sverige AB is a committed operator and developer of renewable energy, and our ambition is to develop, build, manage, maintain and own the projects in the long term. We invest in green energy solutions to accelerate the energy transition and combat climate change. EnBW Sverige AB go beyond expectation and are dedicated to developing a better world.

The development of new fossil-free assets must go hand in hand with local interests and needs, which is our approach and operational model.

EnBW Sverige AB will also contribute positively to sustainable development by reducing waste and resource consumption and continually improve environmental conditions throughout the company.

Everyone at EnBW Sverige AB is constantly working with a commitment to protect the environment to create a sustainable development and pollution prevention, this is achieved by systematic work on environmental issues and constantly improving our management system. All employees have high awareness and dedication to create a sustainable development. Our waste management system ensures that we collect all waste that is generated, and we follow applicable laws and regulations.

EnBW Sverige AB has got environmental objectives to create participation and dedication, where we will reduce our total carbon dioxide emissions in tons/employee.

Providing high quality performance of maintenance is our goal in order also to extend the lifetime of the wind turbines and the yield of the solar farms as much as possible. Constantly improve our environmental performance and strive to influence our suppliers in the same direction.

By having a good planning for the service cars we can reduce the distance that our service cars are driving which means less carbon dioxide emission, where possible we refuel all company cars with more environmentally friendly fuel to lower the carbon dioxide emissions, we also try to increase the number of electrical and hybrid cars in the company. In our offices we strive to have as environmentally friendly energy as possible.

Mads Miltersen  
Chief Executive Officer  
EnBW Sverige AB
